

MediaCare

Easy, Consistent Protection of Backup Tapes for All Your Remote Sites

Best practices require data backup tapes to be vaulted off-site in secure and environmentally controlled facilities. But if your organization has many branch offices or remote sites, how can you be sure backup data is being protected the right way?

Iron Mountain MediaCare provides a simple, solution to consistent, secure off-site storage of your critical backup tapes. We'll arrange for regular shipment of your tapes to our high-security vaults, so your data is protected and your personnel can take care of other business.

Iron Mountain MediaCare provides:

- Affordable, consistent data protection and recovery for remote locations
- Rapid availability of backup tapes for recoverability
- Backup media shipped via overnight courier
- Trained staff utilizing proven processes to monitor, store and protect your backup tapes in secure vault facilities
- Assistance with tape reconciliation and audits of off-site tapes

GET YOUR BACKUP DATA OFF-SITE

With MediaCare, backup tapes are regularly shipped by courier to an Iron Mountain facility where they are protected in our highly secure vaults and always available for disaster recovery. Our consistent, reliable data protection and recovery processes ensure your data is safe.

ENSURING CONSISTENCY

Iron Mountain provides highly secure vault facilities for both tape backup and archival purposes. Our trained professionals monitor your data protection program to ensure remote offices are adhering to the process guidelines. This ensures your backup data is appropriately protected and available for recovery.

RAPID RESPONSE THE MOMENT YOU NEED IT

If disaster strikes, Iron Mountain's worldwide resources accelerate recovery, allowing you to quickly resume business. Iron Mountain delivers your backup tapes to your chosen recovery location at the time you need them.

SECURESYNC™ PROVIDES ENHANCED VISIBILITY — AND TOTAL CONTROL

Iron Mountain's Web-based tape management system, SecureSync, provides your IT group with a unified view of backup and vaulting operations, including data center and remote-site backup. SecureSync allows you to request schedule changes, access scheduled and ad hoc reports, track exceptions, and easily communicate with the Iron Mountain team.

PART OF A TOTAL DATA PROTECTION AND RECOVERY SOLUTION

MediaCare is part of Iron Mountain's comprehensive approach to data protection and disaster recovery for business continuity. Our services are designed to reduce cost, complexity and risk to your business — while enhancing your compliance and control.

Over the past 50 years, Iron Mountain has grown to be the world leader in records and information management. Today, we count over half of the Fortune 500 among our 45,000+ clients. The reason for the success is simple. Iron Mountain continually earns clients' trust as their off-site data protection needs grow by investing in technology tools that enhance their access to and control over their critical business information.

Choose Iron Mountain...our policies and procedures for the security and integrity of data management are the most stringent in the industry. We've successfully helped customers recover from hundreds of disaster events and completed tens of thousands successful disaster recovery tests.

Iron Mountain...because without the data, there is no recovery.
